

GOLDBUG CRANKS.

It is telegraphed from Washington that the United States Senate has been threatened with destruction by dynamiters. It is asserted that several silver Senators have received letters which state that if they do not permit a vote to be taken on the unconditional repeal bill a bomb will be dropped from the gallery into the midst of the silver leaders. Stewart, Jones, Teller, Wolcott and other prominent silver men have received such letters. Stewart is disposed to dismiss the matter without consideration, but some of the others are frightened. The Sergeant-at-Arms has been informed of the situation and a number of special detectives have been sent to the Senate chamber to watch suspicious characters.

The remarks of Senator Voorhees in the Senate indicate that the goldbugs are getting uneasy and will resort to violence to secure the passage of the repeal bill. Voorhees, who for years had been an advocate of silver remonetization, surprised his old associates early in the present session by talking in favor of silver and acting with those who are opposed to it. He took charge of the repeal bill and is doing all in his power to secure its passage. He does not satisfy the gold men, however, and he now declares in the Senate that he is arraigned before public opinion for not terminating the debate on the repeal bill, though as well might he be arraigned for not terminating the tide of the ocean or the northwest winds. He finds the sentiment in favor of silver irresistible and he cannot change it. The gold men, seeing that Voorhees is powerless and unable to carry out their program, resort to the methods of the anarchists to carry their point and threaten the Senators who are battling for the rights of their constituents with destruction.

Well may it be asked, Whither are we drifting? A number of Senators of the United States insist upon giving silver the right of mintage which was accorded it from the establishment of the mint in 1792 to 1873. They assert what everybody knows to be a fact, that there is not gold enough to answer the requirements of commerce and that our country, which should be the most prosperous on the globe, is suffering from a scarcity of money. For declaring those self-evident truths and avowing their intention to abide by the declaration their lives are threatened either by the paid agents of the goldbugs or by persons of feeble intellect their sophistries to the extent of believing that the present unprecedented business depression is caused by the monthly purchase of 4,500,000 ounces of silver by the Government.

A CORPORATION BUGABOO.

It appears that the fears expressed by the *Gazette Publishing Company* that the people of Nevada would wake up some morning and find Utah Territory annexed to this State was simply and solely a corporation bugaboo. No other paper in the State heard of it. The *Silver State* said the question is not discussed in Humboldt county, and it takes no stock in the report that an annexation scheme is being secretly concocted. The *Elko Independent* says:

"The Reno *Gazette* is working itself into a passion over what it calls a scheme on the part of the people of Eastern Nevada to annex themselves to Utah. If there be such a scheme the *Independent* knows nothing of it. There was a little talk of that kind last Spring, but it soon died out."

As the *Gazette Publishing Company* seems to be the only corporation that knows anything about this secret annexation scheme, the inference is that it was merely a hallucination. The Constitution prohibits the annexation of any more territory on the eastern border of the State, and as that instrument cannot be changed without the consent of a majority of the voters of the State, annexation cannot be accomplished secretly, whatever corporations may say or think to the contrary.

The *Virginia Chronicle* says the Stewart amendment to the repeal bill, being in the interest of the whole northern hemisphere, if adopted, will be worth more to the commerce of the United States than all the subsidized shipbuilding the Fifty-first Congress indulged in. And it will be hard to beat it in the Senate.

The most important engineering operations now being carried on in the world are the building of the Manchester Ship Canal, upon which already almost \$50,000,000 have been expended, and the opening of the Iron Gates of the Danube, which will cost down from \$15,000,000 to \$20,000,000.

The White Pine *News* says the Salt Lake *Tribune*, which in the late Presidential campaign carried water on both Republican and Silver shoulders, has dropped the Republican bucket and come squarely into the camp of the "ghost-dancers," a term it derisively applied to the Silver party.

MISSOURI is emphatically a silver State. Twelve of its fifteen representatives in the House voted for free coinage, and its Senators, Vest and Cockrell, are in the front rank of the silver forces in the Senate. Every Congressman from Missouri outside of St. Louis is a silver man.

COMMOTION IN PARADISE.

A Man Badly Beaten and Doubts Entertained of His Recovery.

PARADISE, Sept. 17, 1893.

ED. JOURNAL.—We had quite a commotion here Sunday afternoon. Charles Maddred went into Tom Burns' saloon and accused him of selling whisky to Indians. Tom put him out, knocked him down, jumped on him with both feet, and it is supposed broke some of his ribs. He also kicked him in the face until it looks like a raw beefsteak. It was thought for awhile that Maddred's injuries would prove fatal, but he is some better this morning and hopes are entertained of his recovery.

As usual the officers were not around, and when the Constable was found and went to make the arrest after the Justice of the Peace had made out a warrant, Burns ran him out of the house. The Constable summoned a posse and finally arrested his man and put him in jail.

REDWOOD.

Death of an Old Nevada.

W. O. H. Martin received a dispatch from San Francisco announcing the death of F. D. Stadtmuller, which took place in that city at 2 p. m. yesterday. The deceased was an old resident of Nevada, having resided in Galena and Dayton for years. He came to Nevada in 1882 and left for San Francisco in 1879, and resided in that city up to the time of his death. He was a brother-in-law of Mr. Martin and his leaves a widow and six children, ranging from six to twenty-two years of age to mourn the loss of a kind husband and indulgent father. Mr. Martin and his son Harry left for the city last night to attend the funeral.

"WHAT is the use of talking free coinage and then voting for the old party organizations which strike it down year after year?" asks the Denver News.

The remainder of the amount asked for she claims to have earned in service to Keene between 1883 and 1889. Keene, in his answer, denies the existence of any trust in favor of Mrs. Rankin or that he owes her any money for services."

DEFALUTER KRUG CAUGHT.

ON A GRAND SCALE.

The Austrian Army Shows Off Before the Assembled Sovereigns.

GUENZ, September 20.—The maneuvers of the Austrian army began in the presence of a most brilliant gathering of notable sovereigns. The meeting is an especially important one, and will be conducted on a more extensive scale even than the recent great assemblage of German troops at Metz. The principal figures on the field were the Emperors of Germany and Austria, the King of Saxony, and the Duke of Connaught.

The town of Guenz was captured to-day by a cavalry division of the southern army, which advanced from Styria and met a division of the northern army cavalry, containing 4,000 horses and three batteries, a few miles south of Guenz. The northern force was at first successful, but was finally driven by the infantry force, which accompanied the southern division of cavalry. Twenty thousand soldiers of the southern army advanced through Guenz this afternoon and occupied the villages situated a mile north of the town.

The engagement of the rival cavalry forces was intensely exciting. Several serious accidents occurred to cavalrymen in various charges, and a number of officers were thrown from their horses and trampled upon.

Looking for Dr. West.

SAN FRANCISCO, September 20.—The San Francisco police are looking for Dr. Eugene F. West, who, they think is responsible for the death of Miss Addie Gilmour, the young woman whose head was found floating in the bay. The police have a theory that Dr. West performed a criminal operation on the young woman which resulted in her death, and that, in order to conceal body up and threw it into the bay. Until yesterday West had an office on Turk street, this city, but he disappeared yesterday afternoon when the fact was published that the head had been identified.

Krug Caught.

ST. PAUL, MINN., September 20.—Adolph Krug, the defaulting City Treasurer of Seattle, Wash., was arrested at the union depot here just as he was about to take the eastbound train for Chicago. The arrest was affected by Frank Crawford, of Seattle. Krug was taken to the Merchants' Hotel for the night.

The Mayor of Seattle was telegraphed to, and wired Crawford to hold the prisoner at all hazards. Krug, when arrested, had \$92 on his person. After fleeing from Seattle he went to Winnipeg, where he spent three days, and then came to St. Paul.

Iowa's Day.

CHICAGO, September 20.—The leading feature at the World's Fair to-day was the opening of Iowa's two days' celebration. Unfortunately for the first time since May the weather was bad. The day opened cloudy with a chill, raw wind, making light overcoats comfortable. Before 10 o'clock a drizzling rain began to fall. Nevertheless the procession, headed by Governor Boies, paraded through the grounds, followed by a reception in the Iowa building. The Patriotic Sons of America also celebrated the day with a procession through the grounds.

Suing Jim Keeno.

NEW YORK, September, 20.—Mrs. Minnie C. Rankin, wife of Alfred A. Rankin of Wayland, Truxton Co. of Wall street, is suing James R. Keene for \$200,000. She claims that \$100,000 was given Keene in 1884 by W. H. Vanderbilte to hold, in trust for her, and that he never repaid any part of the money. The remainder of the amount asked for she claims to have earned in service to Keene between 1883 and 1889. Keene, in his answer, denies the existence of any trust in favor of Mrs. Rankin or that he owes her any money for services.

The trial of Ira B. English for killing Fred Cadie, near Fort McDermitt last February is now being held at Winnemucca before Judge Cheney. District Attorney Buckner and J. A. Plummer of Stockton, Cal., are the prosecution and M. S. and S. J. Bonnifield for the defense.

Geo. W. Mapes has returned from Grizzly Valley, where he had been gathering up stock. He has 350 head of cattle on the way and he expects them to arrive this evening. These cattle will be pastured on the meadows until later in the season when they will be fed for the market.

RENO DAY.

A Throng of People in Attendance at the Fair Yesterday—Fine Bicycle Racing.

Yesterday was Reno day at the Fair and the city presented a deserted appearance. Several of the business houses closed to allow their clerks a holiday, and the opportunity to attend the Fair was taken advantage of. Crowds were seen to wend their way toward the track as early as 9 o'clock, and by 10 the grand stand was comfortably filled, principally with ladies. The attendance of the sterner sex was not lacking, for the ground in front of the grand stand was crowded with them. The principal event of the morning was the bicycle races, interest in which has been waxing warm for some time past.

BICYCLE RACES.

The first race was one-half mile, standing start, for the championship of the State. The entries were A. C. Helmold, riding a 20-pound Victor racer, J. H. Upson, riding a 35-pound Columbia, and J. Sullivan, riding a Victor nickel-plated machine. C. A. Jones, Lieutenant J. M. Neall and Prof. R. Lewers acted as judges, and Prof. Jackson as starter.

Each rider had a separate starter, that is at the back of his wheel to push him off at the start. It seemed to be the general opinion that the man who had the best and strongest pusher would have the advantage in the race. Therefore the contestants selected what they considered the strongest men. Sam Mozingo acted in that capacity for Helmold, Jerome Higgins for Sullivan and J. Miller for Upson.

The word was given for the start, and like a shot out of a gun the three were off. If the start was any criterion as to the strength of the pushers, Mozingo is entitled to the whole bakery, using a common phrase, for there seems to be a question in the minds of many whether or not Helmold's wheel touched anything but the high places between the half post and three-quarters. At any rate, he shot to the lead from the start, took the bit in his mouth and went to the three-quarter post at remarkable speed. Looking around, on reaching this post, he saw there was about eight or ten lengths of the wheel between himself and his competitors, and he took a slower pace. Coming down the stretch he "slept" on his wheel and came under the wire winner by about 100 yards. Upson second, Time 1:30. There is no question but that if he had tried Mr. Helmold could have reduced the time fifteen or more seconds. He is an exceedingly strong rider, and will endeavor to lower the State record for the mile run to-morrow, which was made by Prof. N. E. Wilson last year in 3:03 1/4.

The next race was one-quarter mile and repeat, flying start. The entries were J. Sullivan, Jerome Higgins and Chas. Nash. They started well together with a heavy wind in their face. Nash took the lead and held it to the finish, coming in about three lengths ahead, Higgins second. Time 42 1/2.

Nash also took the second heat without much trouble, with Higgins second. Time 42.

The next race was the one in which the most interest was manifested. It was a one-quarter mile run for ladies, standing start, for the championship of the State. There were but two entries, Mrs. W. A. Moore and Miss Maud Nash, the latter a little girl about fourteen years of age, each riding a Victoria. Both were known to be accomplished riders, and it seemed to be simply a question of endurance as to which would win. The wind by this time was blowing very hard, and in coming down the entire quarter the ladies would have to face it. W. A. Moore acted as starter for his wife and Chas. Nash for his sister Maud. As the bell sounded for the start every lady in the grand stand rose to her feet, craned her neck and was all anxiety to see the run, while the men rushed to the fence separating the grounds from the track to better see the result. As the bicyclists turned into the home stretch it was seen that little Maud was ahead. On the last eighth it was plainly visible that both were laboring extremely hard against the heavy wind, and when nearing the post it was with great difficulty that either could keep her wheel in motion. Maud came under the wire, however, about six or eight lengths ahead, and she was so nearly exhausted that but for the assistance of a number of gentlemen who ran to her side, she would have fallen from the wheel. A glass of water quickly revived her and she was ready to receive the congratulations of her many admirers. Mrs. Moore, although not so fatigued as her competitor, was fairly tired out when the race was run. The distance is too long for a lady's race. The time in which the quarter was made was one minute.

The one-quarter mile championship race was postponed until to-morrow on account of the heavy wind.

Thus ended a morning of excitement and bustle at the grounds, and it being noon by this time, the many who had brought their lunches set in to replenish the inner man.

At 10 o'clock sharp the trapeze and ring performers were again on hand and entertained the attendance with their excellent performance.

THE RACES. After the trapeze and ring performance the bell tapped for the first race, with Hon. C. C. Powning, Hon. W. J. Westerfield and Joseph Marzen in the judges' stand.

No. 10—Running, one mile and 70 yards, 3-year-olds; \$400. The entries were: Steadfast, ridden by W. Clancy; Quarterstaff, by Spence and Wyanshott, by Smith. Quarterstaff sold

A CARSON SNAKE STORY.

How Rattlers Assist in Getting Them-selves Shot.

The Carson Appeal tells this snake story:

"A few days ago the writer saw an Indian kill a rattlesnake in a very peculiar manner.

The rattler was about ten feet from the Indian, and the Indian was merely resting the rifle on his knee but not apparently taking aim.

"Whenever he moved the weapon a few inches the snake would move around and get exactly in line with it. Then to show the writer how the thing was done he moved about the snake in a circle, and the reptile moved as if his head was a pivot, always keeping his head and body right in line with the gun. The Indian then agreed to bandage his eyes and shoot the snake in the mouth.

The writer bandaged the Indian's eyes, and holding the gun by his side at arm's length he pulled the trigger and the ball entered the snake's mouth and passed the whole length of his body.

"How did you take aim?" was the query.

"The snake, he take aim," was the reply.

"We have talked with an old hunter on this proposition, and he claims that a rattlesnake will always range himself directly in line with a gun or stick pointed at it.

"There is never the slightest necessity of aiming the weapon, you merely touch the trigger and the snake does the rest.

“German Syrup”

A Throat and Lung Specialty. Those who have not used Boschee's German Syrup for some severe and chronic trouble of the Throat and Lungs can hardly appreciate what a truly wonderful medicine it is. The delicious sensations of healing, easing, clearing, strength-gathering and recovering are unknown joys. For German Syrup we do not ask easy cases. Sugar and water may smooth a throat or stop a tickling—for a while. This is as far as the ordinary cough medicine goes. Boschee's German Syrup is a discovery, a great Throat and Lung Specialty. Where for years there have been sensitiveness, pain, coughing, spitting, hemorrhage, voice failure, weakness, slipping down hill, where doctors and medicine and advice have been swallowed and followed to the gulf of despair, where there is the sickening conviction that all is over and the end is inevitable, there we place German Syrup. It cures. You are a live man yet if you take it.
